EXPERIENCE

SENIOR SOFTWARE ENGINEER • INTL FCSTONE FEBRUARY 2017 – PRESENT

As part of the team responsible for the eCustody equity portfolio management platform, I am responsible for developing backend enhancements for the existing web app and new native mobile apps for the Android and iOS platforms.

FOUNDER • ANSURIA SOLUTIONS APRIL 2013 – FEBRUARY 2017

Founded a professional services provider to create web, mobile and desktop application solutions on behalf of clients. Served as technical architect and manager of a team consisting of 7 part-/full-time engineering, QA and PM resources.

TECHNICAL ARCHITECT • UNIVERSAL MIND JANUARY 2008 – APRIL 2013

Provided software engineering services on behalf of company to a variety of Fortune 100 clients, including Adobe Professional Services, Intercontinental Hotels Group, SAP, T-Mobile and Verizon Wireless. Utilized agile development processes (stories, points, sprints) and unit testing with various CI build systems (CruiseControl, Hudson/Jenkins and TeamCity) to ensure product quality.

SENIOR SOFTWARE ENGINEER • MANTISSA CORPORATION AUGUST 1998 – JANUARY 2008

Responsible for development of company's document management software offerings on the Windows PC platform using C++/MFC from 1998 to 2005, and multiple rich internet applications from 2006 to 2008.

SENIOR SOFTWARE ENGINEER • ARBITRON/NIELSEN FEBRUARY 1995 – AUGUST 1998

Designed and developed a Windows-based radio programming scheduling system for use in the U.S. radio broadcast industry using C++/MFC.
